PROFESSIONAL SUMMARY

Senior Software Developer with 15+ years of experience specializing in scalable enterprise systems and microservices architectures. Deep technical expertise in the .NET ecosystem (C#, ASP.NET Core), Azure/AWS cloud platforms, and SAP/ERP integrations. Actively expanding into AI-driven application development, leveraging Python to research and implement intelligent solutions. Proven track record in modernizing complex legacy systems, designing high-performance APIs, and configuring CI/CD pipelines.

TECHNICAL SKILLS

Backend & Core	.NET Core, C#, ASP.NET Core Web API, Entity Framework Core, MediatR, RESTful API, Swagger/OpenAPI, LINQ
Architecture & Cloud	Microservices (DDD, CQRS, SOLID), AWS, Azure DevOps, Docker, CI/CD Pipelines, Git/GitHub, Clean Architecture
AI & Automation	Python, LLM Integration (OpenAI, Gemini, Claude), Workflow Automation (n8n, Make.com), Prompt Engineering
Data & Analytics	SQL Server, PostgreSQL, MySQL, Database Optimization & Tuning, Power BI, SAP Analytics Cloud (SAC)
ERP & Enterprise	SAP (ABAP, SAPUI5, Fiori), OData/SOAP, RFC/BAPI, FI/MM/PP/CO Modules, Perfex CRM Customization
Frontend	Angular, TypeScript, JavaScript, HTML5, CSS3, React (Hybrid Mobile)
Leadership	Agile/Scrum, SDLC Governance, ITIL, COBIT 5, Team Mentoring, Code Reviews, Technical Documentation

WORK EXPERIENCE

Mastra GmbH www.aureus-crm.de 02/2025 – 02/2026

Senior Software Developer / Tech Lead | Frankfurt, Germany

- Led technical design and development of a multi-tenant SaaS CRM platform for the facility management industry, ensuring high scalability and security.
- Transformed monolithic PHP systems into a modern distributed architecture, achieving 30% performance improvement and reducing technical debt.
- Engineered high-availability infrastructure using FrankenPHP and AWS, optimizing costs and application responsiveness.
- Established code review standards and optimized CI/CD pipelines, increasing deployment frequency by 60%.
- Researched and implemented AI-driven components using Python to automate internal business processes and data analysis.

Temsa Skoda Sabancı Transportation www.temsa.com 11/2019 – 10/2023

Senior Software Developer & Team Lead | Adana, Turkey

- Led the technical analysis and conceptual design of a Dealer Management System (DMS), defining the architectural roadmap for dealer operations across Sales, After-Sales, and Spare Parts.
- Architected the 'TOMS' Order Management System using .NET Core, Domain-Driven Design (DDD), and CQRS patterns for high scalability.
- Led the migration of legacy monolithic applications to a microservices architecture, reducing deployment times and improving system resilience.
- Optimized complex SAP ERP integrations (RFC/BAPI) to automate critical business workflows across production and sales departments.
- Developed and enhanced a high-traffic corporate communication platform and hybrid mobile applications using Angular, React, and .NET.

STFA Holding www.stfa.com 07/2017 – 08/2019

Management Systems Manager – IT | Istanbul, Turkey

- Built and improved a cost control system on the Microsoft .NET stack, enabling real-time profitability reporting for construction projects.
- Integrated accounting data via SAP RFC to streamline redundant operational tasks across finance and accounting departments.
- Oversaw training and onboarding for the project team across domestic and international construction sites.

Logon Consulting www.logon.com.tr

05/2016 – 08/2017

Senior Software Consultant | Ankara, Turkey

- Conducted technical analysis with customers and delivered SAP ABAP development and customization.
- Resolved performance bottlenecks in slow-running SAP reports and applications; enhanced SAP Fiori programs.
- Provided technical mentorship and support to junior developers.

Rönesans Holding www.ronesans.com

03/2014 – 12/2015

Software Development Chief – IT | Ankara, Turkey

- Developed and maintained secure, scalable ASP.NET Web Forms applications with SQL Server optimization.
- Led delivery of critical enterprise systems: Corporate Health, Safety & Environment app, Quality Control System, and Central Purchasing Application.
- Coordinated cross-functional teams to ensure timely, budget-compliant delivery of web applications.

Yapı Merkezi Holding www.ym.com.tr

03/2010 – 10/2013

Software Development Specialist – IT | Istanbul, Turkey

- Developed full-stack enterprise applications (Cost Control, Purchasing, HR, Occupational Safety, Quality Control) using ASP.NET and MS-SQL.
- Participated in full-cycle SAP ABAP development and system implementation following the company's SAP adoption.

Enka Construction www.enka.com

03/2006 – 08/2009

System Support Specialist – IT | Donetsk, Ukraine

- Managed user accounts, password resets, remote support, hardware/software procurement, and network security.

Pricoinsa Co. Inc. www.pricoinsa.es

11/2005 – 02/2006

Technical Service Intern | Barcelona, Spain

- Supported technical service operations and hardware/software maintenance tasks.

KEY PROJECTS

Aureus CRM SaaS Platform (PHP, MySQL, AWS)

Managed technical modernization and cloud deployment of a SaaS CRM for the facility management industry, focusing on scalability, automation, and multi-tenant architecture.

TOMS – Temsa Order Management System (.NET Core, DDD, AngularJS, SAP)

Designed a B2B order management system handling end-to-end approval workflows and SAP ERP integration for production operations.

Automotive Dealer Management System (DMS) – Conceptual Design & Analysis (.NET Core, Angular)

Led the technical analysis and conceptual design phase for a comprehensive DMS aimed at digitizing operations across the automotive dealer network (Sales, After-Sales, and Spare Parts).

Corporate Communication Platform (Angular, .NET Core, React Hybrid)

Architected an intranet-based corporate communication platform including a CMS and hybrid mobile applications.

SAP ECC ERP Full-Cycle Implementation (ABAP, SAP Modules)

Played a key role in full-cycle SAP ERP implementation including process analysis, ABAP development, and end-user training.

Enterprise Internal Systems Suite (.NET ASPX, MS SQL)

Managed development of multiple internal enterprise applications including Cost Control, Purchasing, Quality Control, Health & Safety, and HR systems.

EDUCATION

M.Sc. Management Information Systems & Engineering – Istanbul Marmara University

2019 – 2021

B.Sc. Business Administration & Management – Eskişehir Anadolu University

2007 – 2011

Associate Degree, Computer Technology & Programming – Çanakkale 18 Mart University

2003 – 2005
